A warning from the past
Why a special Department?
The structure of the Department—some basic concepts
Typical position descriptions
Department structure—some typical approaches
Where to place the Department within the organisation
Selecting Forms Management personnel
Decentralising the forms management function

Chapter 6 Form Identification

How to identify forms
Some common approaches to form numbering
Allocating blocks of numbers
Number prefixes and suffixes
What to do about non-stock forms
What to do about temporary forms
Form titles

Chapter 7 Indexing and Filing

The Forms History File
The Job File
The Form Number Register
A computer index
Do you really need a Functional File?
Which functional filing system is best?
Basic principles of functional file/index construction

Chapter 8 Managing New and Changed Forms

Some fundamental principles
The Form Design Request form
When users test their own forms
Design sign-off
What to do about bootleg forms

Chapter 9 Day to Day Work

Basic record keeping
Keeping statistics
Manual recording systems
Computer-based recording systems
Setting priorities

Chapter 10 Forms Analysis and Design

Controlling design
Form design isn't easy
Understanding the current process
The analysis and design team
The analysis and design process—an overview
The tools and techniques of analysis

Chapter 11 Form Design Standards

The need
Standards or Guidelines?
Flexibility of standards
Establishing the standards
Enforcing the standards

Chapter 12 Testing and Evaluating Forms

The failure of traditional methods
What we've learned in recent years
Finding out what people do with forms
Setting up a quality testing program

Chapter 13 Form Review

When to review forms
What a review system should provide
The first review
The process of review
When the review is finished
Forms improvement programs
Finding forms to redevelop
Later specialised programs
Meeting objections

Chapter 14 Producing the Forms

Typesetting
Should Forms Management buy the forms?
Using brokers and distributors
Initial contacts with printers
Lead times
Purchasing forms for new systems
When the forms are printed
Inspecting printed forms
Dealing with badly produced forms
Getting good quality printing
Standard specification forms

Chapter 15 Supplying the Forms to Users

Responsibility for inventory and stock control
Physical control of forms storage
Delivery of stock to users
Watch critical items
Beware of over-controlling your forms
Unexpected shortages and urgent requirements
Solutions to unexpected shortages
Dealing with obsolete and obsolescent forms
Outsourcing the supply function

Chapter 16 Managing Electronic Forms

An often-repeated prophecy
Paperless office at the crossroads
Using technology the right way
Basic management principles
Learning what people do with electronic forms
Alliances and workgroups

Chapter 17 Planning the Program

Major considerations
Why planning the program is so important
Who will install the program?
Staffing the Forms Management Department
The preliminary survey
Developing your plan of operations

Chapter 18 Senior Management Backing

Why this backing is necessary
Breaking through the barriers
Dealing with internal politics
Dealing with naive management

Chapter 19 Implementing the Program

The first steps
How long will it take?
Setting up the Department
Setting up the numbering system
Announcing your existence
The launch meeting
The role of the consultant
Some “back door” methods

Chapter 20 Collecting and Cataloguing Forms

The great forms robbery!
Why this chapter is near the end of the book
The aim of the process
Collecting the samples—finding out which forms are in use
The collection letter
When the forms arrive
Listing the forms
When the listing is complete
Detecting “bootleg” forms

Chapter 21 Measuring and Reporting Savings

A forms management barometer
Savings categories
The company staff news
The source of data
The report itself

Chapter 22 Making Sure the Program Works

The future of the program
Your approach to the job
Monitoring progress
The importance of “doing it right the first time”
Why some Forms Management Programs fail
Re-engineering the Forms Management process
